A Story Behind Every Ingredient

Our Mission

At Artisanal Provisions, we take pride in not just knowing how our specialty ingredients are made, but also knowing the growers, cheese mongers, and families who make them. Because we believe that good food starts with good ingredients, and that good ingredients start with good people.

We've searched and sourced the world, including our own backyard, working with the brightest minds in the business to bring you the greatest selection of specialty items. From the staples to hard-to-find ingredients, you'll find quality and care in everything we offer – from flour to fromage, preserves to pastas.

Beehive Cheese

Uinta, Utah

While we live in an instant-gratification world, some things are worth waiting for. That belief led brothers-in-law Pat Ford and Tim Welsh to establish Beehive Cheese. Together, they have reminded us all of the delicious difference that comes from handcrafted, artisanal cheese.

Made from the creamiest milk in Utah, Beehive Cheese is made with an artisan's patience – mixing and warming for hours, polishing each unique seasonal recipe, waiting for wheels to ripen to perfection – all to create some of the most superior cheese in America for you to enjoy.

From their Irish-style Promontory cheese with its snappy, citrus-like fruity notes to their espresso and lavender hand-rubbed Barely Buzzed cheese with subtle notes of butterscotch and caramel, each authentic Beehive Cheese demands you slow down to experience its full flavor and entices you to try another.

Creminelli

Salt Lake City, UT

People who love great food, love Creminelli.

Expertly blending old world traditions with modern techniques, Creminelli produces their fine meats in small batches to ensure full control. The result is new flavor profiles for modern food lovers who know the value of slowing down to do things the right way.

Also known for “crafting with kindness,” all Creminelli products are made from 100 percent U.S. heritage pork raised living a natural life – free to roam and forage – with no added nitrates and no antibiotics, ever.

Creminelli’s farm-to-table process is elevating standards across the food industry and earning fans across the nation. Creminelli does more than provide fine meats – they take us back to a time when food told a story and make taste-treasures found at the meat markets of yesterday available today

Restaurant basics that are anything but basic

Almost every culture in the world has a signature grain, legume or rice. We make it our mission to seek out the best colors, textures and tastes. Like couscous from Israel, orzo and cannellini beans from Italy, quinoa from the Andes, lentils from France and even revered black rice from China.

Pappardelle's

Denver, CO

If the kitchen is the heart of the traditional Italian household, pasta is its lifeblood. And Pappardelle's pasta is hand-crafted with the same care and attention to detail artists use when taking paint to canvas or chisel to stone.

A time-honored tradition, Pappardelle's uses a delicate craft to turn flour, water and a variety of herbs, spices, vegetables and fruits into edible art, including offerings such as Artichoke Lemon Tagliatelle, Hatch Green Chile Pappardelle and Dark Chocolate Linguine.

Pappardelle's selects only the finest quality ingredients for its vast assortment of ravioli fillings, sauces and pesto. Each filling is made in small batches, creating succulent and lingering flavors; with many so thick, chunky and full of texture that they're hand-fed into the ravioli forming process. Sauces are simmered for hours to extract the perfect balance of flavors and pesto made by hand using traditional methods that simulate the use of a mortar and pestle.

Casa Martinez

Sinaloa, Mexico

Graced with abundant sun and rich soil fed by three rivers, Sinaloa, Mexico is the vast, fertile region from which Casa Martinez salsas hail. Home to the Martinez family since the early 1900s, the family's mastery of Mexican culinary arts and hand-crafted salsa using only the freshest vegetables spans more than a century.

This women- and minority-owned family business has a love of salsa making that begins with the joy of freshly hand-picked tomatoes and vegetables. It's in the smell, color, taste and texture of each ingredient beautifully gifted from the earth, artfully combined to enrich life with enjoyment of their world class salsas.

Casa Martinez authentic Mexican salsa recipes use only the highest quality, all natural ingredients. The proximity of their plants to growing regions enables sourcing fresh ingredients year-round! Artificial flavors or previously processed ingredients, such as canned tomatoes or paste are never used. Each vegetable is hand-picked and fire-roasted to perfection. With four distinctly delicious gourmet and premium varieties, there is a blend that delivers the distinct flavor of Mexico you're seeking in unique bulk dispensing packaging.

A dark wooden surface serves as the background. In the upper left, a small white bowl is filled with a mix of green and dark purple olives, garnished with a sprig of rosemary. To its right, a small white dish contains a golden liquid, likely olive oil. In the foreground, a wooden spoon holds two olives (one green, one dark) and a drizzle of oil. On the right side, a slice of rustic, porous bread is visible.

Great bakeries start with great ingredients

The baking oven is the heart of any kitchen. That's where we come in. From essentials like flours, fine chocolates, nut pastes and extracts, and pastry dough to treats like tart shells, cannoli, and confectionary cups, even tools like crimpers and pastry bags, we have everything you need for a bakery that's world-class.
